Major General Sickles, From the New York Tribune.

The President has besued an order mustering General Sickles onto the service. We have been experimental this ton some time, although we hoped that this Excellency would refrain from an action and the services toward a guilant soldier. General Sickles retries into the grade of a Colond, to be ordered, perhaps, to Waltussia, and report to General Rousseau who a is promoted by John son as a particular this policy, and confirmed by the Service novellhelming. There are one of two points about the energy focuser is Rickles which make this peculiarly vindictive. When accession was threatened in the House, Sickles which make the present of the third particle of the particular to the particular the succession was threatened in the House, Sickles which as the way that the particular shade the particular shade of the particular was among the first Democrate to volunteer, and was among the first Democrate to volunteer, and was among the first Democrate to volunteer, and the extraction for the particular that an area the extraction of the particular that the particular that the extraction of the particular that the extraction of the particular that an area the extraction of the particular that an area that extraction of the particular that and the particular that the particular that and the particular that the When the Sumer government of the first Democrals to volunteer, and the first Democrals to volunteer, and the first trip after that thereof the service of through the war former a leg at Gettys a moner a military distinction which no story officer from cavillife has surpassed Reconstruction became necessary. Cancusing

Considerable cancusing is going on among the Western men in relation to the Secretaryship of the Sente Strong pressure will be brought to have Col. Forney displaced to make room for salections from the West. It is orgaid by the prominent persons from that region that their section of the country is not fairly represented in the public offices, hance they propose an on equal distribution.
